EXAMINER'S ACTION

Art Unit: 2516

The drawings are objected to because Figs. 1, 2, 3, 4, and 10 should be labeled separately as Figs. 1A and 1B, 2A and 2B, 3A, and 3B, 4A and 4B, and 10A and 10B, respectively. Correction is required.

Note: If the figures are changed as suggested above, the specification should include the brief description of each of the above Figures. And the detail description should follow accordingly.

Claims 5-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 appears to be inconsistent with claim 1, because claim 1 call for only one lens, whereas claim 5 calls for two lenses.

In claim 6: lines 11 and 12, "the integrated circuit carrier" has no antecedent basis.

Claims 7-12 inherent the indefiniteness of claim 6.

Minor suggestions made in the claims

In claim 2, line 4, and in claims 7 and 14, line 3, before "slots", --first-- should be inserted.

In claims 3 and 15: line 2, "the second metal" should be --the first metal--, otherwise claims 3 and 15 are not understood. See claims 1, 6 and 8.

Serial Number: 555,557
